Procurement update.

After running a successful procurement, we are pleased to announce that we have found a fantastic preferred bidder to work with to set up the much needed Bangor practice. This will be a flagship NHS practice in North Wales which will embrace all the requirements of contract reform, it will also be the first NWDA @ practice in the region. We are on to the final stage of governance with BCUHB & Welsh Government and once approved we will be able to announce more.

We want to hear your thoughts.

We will be sending out a questionnaire soon which will ask for your thoughts and opinions on training themes and requirements for all of the dental workforce in North Wales. The questionnaire will be sent out via email to your practice at the end of September. Please keep a look out and help us by completing it. Your input on the project is important to us.

We need your involvement.

We are seeking individuals and practices who want to get involved with delivering training on behalf of NWDA. We are on the look out for Specialists, Dentists with Enhanced Skills (DES), Educational Supervisors, Trainers, Advisors and Mentors.

Please show your interest by completing the relevant sections on the questionnaire, alternatively you can email us at BCU.NorthWalesDentalAcademy@wales.nhs.uk

What is the North Wales Dental Academy?

The academy is not a physical space; it is a driving force with the aim of improving recruitment, retention, training & upskilling of all dental staff working across the North Wales region.

Established in November 2020.

Working in partnership with Health Education & Improvement Wales, All Wales Faculty of Dental Care Professionals, Bangor University and Welsh Government.
